Rio de Janeiro, Rio de Janeiro, Brasil

Resumo

Let's go!

I'm passionate about problem-solving. Learning fuels me. I possess
strong communication, decision-making, and critical thinking skills.

I'm dedicated to JavaScript, with a focus on Node.js. I'm comfortable
with both functional and object-oriented code. I'm proficient in
TypeScript and make it a point to use it whenever possible. I adhere
to software best practices and am capable of working with various
architectures, including test layers, especially unit testing.

I'm open to know new JS frameworks when it makes sense, and I'd
like to highlight my experience with Nest.js in some instances.

About the cloud, currently with Google and Azure, but I have greater
control over AWS services, in addition to constantly dedicating
myself to studies and DevOps activities.

I worked with several databases, relational and non-relational, and
also had brief experience with graphQL.

Furthermore, I had several experiences with queue, event and/or
message-oriented services. Everyday tools are no obstacle. I am
adapted to different operating systems and Git, among others.

Finally, I highlight my enthusiasm for agile methodologies, of which I
believe and practice.

———

Experiência

Bitfy
Software engineer (Consultancy)
novembro de 2021 - junho de 2023 (1 ano 8 meses)

Blockchain infrastructure as service and digital wallet platform for digital currency transactions. Based on microservices and using blockchain.
Technologies: Node Js, Nest JS, Typescript, MongoDB, AWS, RabbitMQ and PostgresSQL.

Estartando Devs
Software engineer professor
dezembro de 2020 - dezembro de 2022 (2 anos 1 mês)
Rio de Janeiro, Brasil

Teach beginner developers with the basic training required in the job market. Each harvest, we plan the course, its syllabus, classes and strategies for obtaining the degree. We are volunteers and improving their living conditions and future prospects. Technologies: Node Js, React Js, SQL and Mongo DB.

Ewally
Software engineer (Consultancy)
junho de 2021 - agosto de 2022 (1 ano 3 meses)
São Paulo, Brasil

Application for banking and payment services. Based on microservices using serverless.
Technologies: Aws, NodeJs, AWS DynamoDB, Lambda Functions, S3 and RabbitMQ.

Globo
Software engineer
dezembro de 2019 - setembro de 2021 (1 ano 10 meses)

Applications for the use of sports broadcasting on television. Scouts and insights for sports broadcast entertainment. Technologies: NodeJS, VueJS, MongoDB, MySQL, Python and AWS.

Storm Group - Security and Defense
Software engineer
maio de 2019 - dezembro de 2019 (8 meses)
Rio de Janeiro e Região, Brasil

web and mobile application for sports betting. Technologies: NodeJS, Typescript, ReactJS, AWS, Python and Django. Web platform for a preparatory course for airline pilots and flight attendants. Technologies: Python, Django, AWS and ReactJS.

americanas s.a.
Software engineer
dezembro de 2017 - abril de 2019 (1 ano 5 meses)
Rio de Janeiro e Região, Brasil

Development of a commercial solutions hub for purchasing. We implement
web tools, chatBot and others. Technologies: Nodejs, React, Oracle,
MongoDB, Watson and IBM Cloud.

Studio MOMA
Software engineer (Freelancer)
janeiro de 2017 - julho de 2017 (7 meses)
Rio de Janeiro e Região, Brasil

Universidade Federal Rural do Rio de Janeiro
Software engineer trainee
maio de 2015 - julho de 2015 (3 meses)
Nova Iguaçu e Região, Brasil

Web development in Java for the 2017 academic week.

Tribunal Regional Federal
Trainee
agosto de 2007 - dezembro de 2008 (1 ano 5 meses)
Rio de Janeiro e Região, Brasil
